## ANNUAL REPORT OF THE ALBERTA HOSPITALIZATION BENEFITS PLAN

1970

June, 1972

To THE HONOURABLE N. S. CRAWFORD,  
Minister of Health and Social Development,  
Legislative Building, Edmonton, Alberta.

SIR:

I have the honour to submit herewith the Annual Report of the Hospital Services Section of the Department of Health for the year 1970.

I have the honour to be, Sir,

Your obedient Servant,  
P. B. ROSE, M.D.  
Deputy Minister of Health

June, 1972

To HIS HONOUR, GRANT MacEWAN,  
Lieutenant Governor of the Province of Alberta.

SIR:

I have the honour to transmit herewith the Annual Report of the Hospital Services Section of the Department of Health for the year 1970.

I have the honour to be, Sir,

Your obedient Servant,  
N. S. CRAWFORD,  
Minister of Health and  
Social Development

## INTRODUCTION

This report covers the calendar year 1970, which is the twelfth complete year of operation of the Alberta Hospitalization Benefits Plan. The report covers administration of the Hospital Services Section's responsibility under The Alberta Hospitals Act, financial and other aspects of the operation of the Alberta Hospitalization Benefits Plan and certain aspects of the operations of the hospital. The Hospital Services Section is also responsible for the administration of The Nursing Homes Act, but this is covered under a separate report, entitled Annual Report of the Alberta Nursing Home Plan.

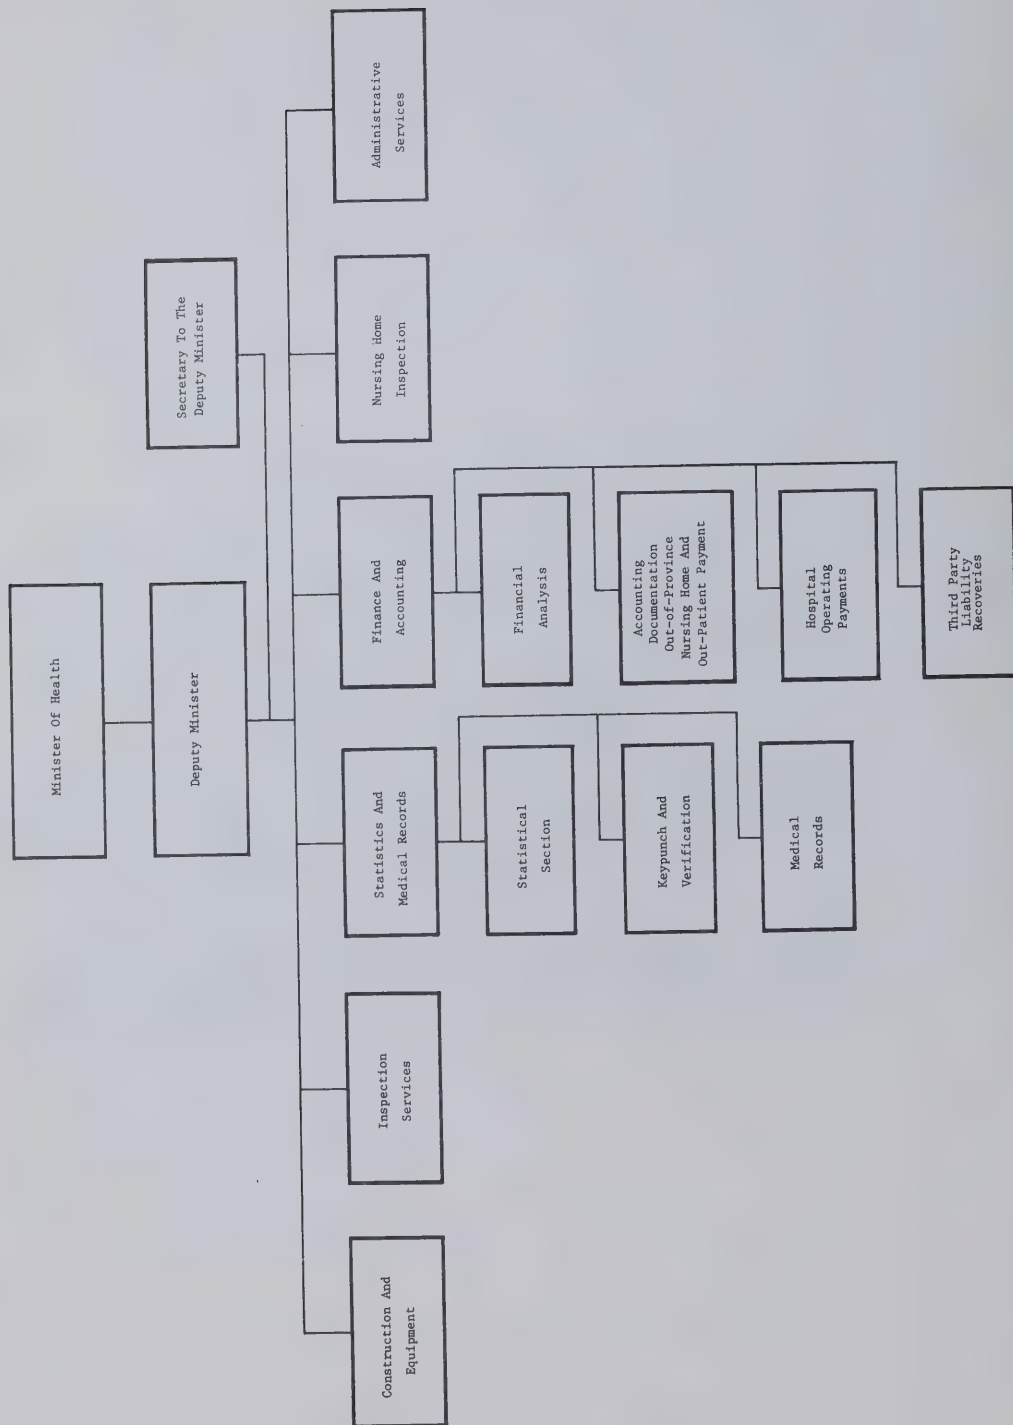

The Hospital Services Section of the Department of Health representing the administrative arm of the Provincial Government in the provision of hospitalization within the province, wishes to express its appreciation of all those persons whose efforts are reflected in the results portrayed in this report. This applies not only in the provision of improved patient care, but also in enabling the work necessary in the effective utilization of available funds to be carried out with a minimum degree of difficulty.

The Hospital Services Section wishes to express its appreciation of the cooperation which has been extended to it by the Executive Committee of government through the Minister of Health. This cooperation has played an important part in the establishment and development of the Alberta Hospitalization Benefits Plan and in its administration.

DEPARTMENT OF HEALTH  
HOSPITAL SERVICES SECTION  
ORGANIZATION CHART  
DECEMBER 31, 1970

## I. ADMINISTRATIVE RESPONSIBILITY

The Hospital Services Section of the Department of Health is responsible for the financial administration of public funds through the Alberta Hospitalization Benefits Plan. An agreement between the Federal and Provincial governments exists whereby both share in the costs of hospital services. Table 2 indicates the sharing of the financial burden for hospital services.

To facilitate the detailed financial administration, Hospital Services Section has developed working arrangements with hospitals in the province. Mr. A. J. Nykolyn, Comptroller, headed the Financial Division of the Hospital Services Section. A detailed examination of expenditures and financial administration in hospitals is carried out through cost studies and financial analysis to determine the overall spending requirements and financial planning for all hospitals in Alberta.

Mr. B. H. Foster, Chief Inspector of Hospitals, headed the Inspection and Field Services Division of Hospital Services Section. The activities of this division are centred around communication and liaison with hospitals. The primary purpose of inspection and field services is to assist rather than direct hospital administration. Certain direct consultation services to hospitals are conducted by the Alberta Hospital Association. Hospital Services Section is in constant liaison with this and other associations that are involved in the health care field.

The activities of the Hospital Services Section in the areas of provision for building requirements, extension of buildings, equipment and major renovations were administered during this period by Mr. Ing Jac de Jong, C.I., B.Arch. He was assisted in this task by the establishment of several internal committees in the construction and equipment area. These internal committees were to function primarily to assure uniformity of treatment among hospitals and the development of acceptable yardsticks for measuring the ongoing construction and equipment needs throughout the province.

Mr. A. H. McLean has the designated responsibility for the research and development activities of the Hospital Services Section in areas other than financial. The research and development area has been involved mainly in gathering and assembling hospital and health services statistics in usable form and in compiling statistical reports relative to the utilization and activities of hospitals in the province.

Mr. R. D. LaRiviere has been responsible for the personnel, administrative and the general office functions together with interdepartmental relationships between Hospital Services Section and other areas of government. Legislation communication, public relations and liaison committee work with other organizations are a part of the administrative function in this area.

The liaison committees comprised of the Hospital Services Section with the College of Physicians and Surgeons of Alberta, the Alberta Hospital Association and the Alberta Association of Registered Nurses were again active throughout the year and the deliberations of these committees aided in the solution of many of the problems affecting hospitals which arose during the year.

Mr. J. D. Campbell, Deputy Minister, Hospital Services Section, Department of Health resigned from his position effective July 1, 1970 and P. B. Rose, M.D.,

TABLE 1:

HOSPITAL SERVICES SECTION - ADMINISTRATION EXPENSES  
FOR THE FISCAL YEAR ENDED 31 MARCH 1971

Salaries	\$427,270.63
Administrative Materials and Supplies	16,030.83
Rentals	12,910.93
Postage, Freight, Express and Cartage	5,334.90
Furnishings, Equipment	9,639.18
Repair and Maintenance Of Furnishings and Equipment	1,089.65
Telephone and Telegraph	1,603.01
Travel	12,910.97
Miscellaneous	35,995.67
<b>TOTAL</b>	<b>\$522,785.77</b>

NOTE: Cost of administration per resident covered under the Alberta Hospitalization Benefits Plan is \$.30.

Deputy Minister of Health was appointed (Acting) Deputy Minister, Hospital Services Section. Mr. Campbell had served in this capacity for many years and made a major contribution in the area of health services generally and to the administration of hospital services throughout Alberta. Mr. A. J. Nykolyn, Comptroller, assumed a major portion of the senior administrative responsibilities after Mr. Campbell's termination.

In October, 1970, the operations of Hospital Services Section were transferred to the Advisory Committee on Departmental Reorganization pending changes in legislation in the spring session of the legislature, 1971, which would transfer the responsibility for hospital services in the province to a proposed Hospital Services Commission.

## II. CHANGES AND POINTS OF INTEREST IN THE PLAN

During 1970 additional accent was given to the reduction of spiraling hospital and health care costs through changes in legislation and by further development of the Alberta Hospitalization Benefits Plan. The year was marked by several policy statements from the Minister of Health and a number of major changes in the plan.

Hospitals were notified of a change in the method of financing operations. Upon review it was decided that for the year 1970-71, hospital financing by budget approval would be applied on a trial basis to only the four provincial hospitals. The first budget was to be completed by November 16, 1970 for the budget year from April 1, 1971 to March 31, 1972. Upon review it was decided that the budgetary approval for the year 1970, 1971 to hospital financing would only be applied to the four provincial hospitals on a trial basis. The basic payment would then be calculated as one-twelfth of the lump sum approved for each Hospital on equipment purchases, operating costs and bad debts and would include a provision for accounts receivable arising from pensioners and welfare recipients for the first six months of 1970. For the remaining hospitals in the province the former method of financing remained unchanged from the method in effect in 1969 except that hospitals were given notification that the amount of increase that would be allowed on operations for the year would be relatively unchanged.

As an additional incentive to hospitals in the province to maintain sound budgeting practices, hospitals were allowed to retain surpluses where an operating surplus was acquired in the 1970 budget year.

On July 7, 1970, an order-in-council was passed by the cabinet revising the method of reimbursement to hospitals for expenditures on equipment purchases. The replacement of equipment, including equipment purchase and installation in any calendar year would, under this method, be calculated on a formula basis. The formula amount payable per rated bed per year was incorporated into section 11 of the Alberta Hospitalization Benefits Regulations. This regulation would allow hospitals to calculate and budget for the amounts that would be payable on the formula basis for equipment based on their needs.

Another amendment to the Section 10 of the regulations was approved allowing the provincial government to pay the principal and interest on debentures for purchasing the equity in voluntary organizations in hospitals. Hospital Services Section has long recognized that some voluntary organizations have found it expedient, for various reasons, to withdraw their equity from the hospital field. This legislation was introduced to assist them to do so in a fair and equitable manner with full compensation for the contributions they have provided.

One of the most important changes to the Plan enacted during 1970 was to eliminate co-insurance charges payable by the patient and the resulting loss in revenue by the hospital was met by an equivalent payment from the province. The effect of the legislation was to require the patient to pay only the admission charge of the hospital for the first day in the amount of \$5.00. The net effect of the amendment was that the Federal Government under the Federal-Provincial Sharing Agreement now would share the portion of the cost represented by the co-insurance which was not formerly shareable in prior periods.

Problems in transferring patients from auxiliary hospitals to nursing homes or other facilities resulted in amendments to the regulations which required a patient staying in an auxiliary hospital for a period exceeding 120 days to pay a charge of \$3.00 per day for each day thereafter. This amendment equalized the charge in an auxiliary hospital after 120 days to that of a nursing home.

Effective as of January 1, 1970, changes were made in the Municipal Taxation Act providing for ex-

emption from municipal tax assessment for hospitals. The four mill tax levied by the municipality as an assessment for hospitalization was eliminated.

Other organizational and administrative changes in Hospital Services Section occurred during 1970 with the resignation of the Deputy Minister, Hospital Services Section. These developments are elaborated on in Section I, "Administrative Responsibility".

### III. FINANCING

#### A. General

In the Province of Alberta the Provincial Government, in partnership with the Federal Government, the Municipal Government and the resident, has accepted the financial responsibility for the provision of standard ward hospital care and outpatient services to persons who qualify as residents of the province. This coverage is available both within the province and in recognized hospitals outside Alberta's boundaries.

Within the Province the most significant sources of care are provided by hospitals owned and operated by municipalities, voluntary organizations and provincially-owned hospitals. In these institutions the costs of standard ward care are met by the hospitalization plan on a net cost incurred basis. Alternative sources of care are provided on a contract basis provided by Federal and other Contract hospitals within the Province. Payment in these latter facilities is made on a patient day basis.

In the case of out-patient services incurred within the Province, these are supplied not only by the hospitals but also by private clinics and in doctors' offices. Payments in regard to the out-patient services incurred in the hospitals and in certain approved clinics are shared with the Federal Government whereas the balance on the payments made are met by the Provincial Government.

Where certain services are provided by the hospitals over and above the level of standard ward care the resident is assessed for the additional cost. In the case of private and semi-private accommodation certain limits have been set by the regulations and are tied in to the approximate cost of the services involved.

TABLE 2:

#### SHARING OF THE COSTS OF THE PLAN

	1968		1969		1970	
	\$	%	\$	%	\$	%
Patients' Share	\$ 9,286,686	6.8	\$ 10,135,493	6.7	\$ 5,183,754*	2.9*
Municipal Four Mill Levy (discontinued after 1969)	11,153,206	8.1	12,201,854	8.0		
Provincial Government	59,576,124	43.3	61,900,901	40.7	93,482,961	52.5
Federal Government	57,422,941	41.8	67,737,367	44.6	79,307,157	44.6
TOTAL	\$137,438,957	100.0	\$151,975,615	100.0	\$177,973,872	100.0

\* Co-insurance charge discontinued July 1, 1970. The patients' share of the 1970 costs does not include premiums paid under The Alberta Health Care Act.

TABLE 3:

## TOTAL COST OF HOSPITALIZATION

	1968		1969		1970	
	\$	%	\$	%	\$	%
Patients' Share	\$ 16,839,810	11.3	\$ 19,317,658	11.5	\$ 15,279,090*	7.9*
Owners' Share (including Municipal Four Mill Levy - levy discontinued after 1969)	12,700,587	8.6	16,687,092	10.0	4,971,323	2.6
Provincial Government	59,779,465	40.3	63,759,316	38.0	93,508,511	48.4
Federal Government	59,075,852	39.8	67,947,850	40.5	79,374,845	41.1
TOTAL	\$148,395,714	100.0	\$167,711,916	100.0	\$193,133,769	100.0

\* Co-insurance charge discontinued July 1, 1970. The patients' share of the 1970 costs does not include premiums paid under The Alberta Health Care Act.

The Provincial Government has accepted the basic financial responsibility of the capital costs for buildings and equipment. Outright payments are made for equipment and are shared with the Federal Government under a joint hospitalization agreement. The balance of the costs have been accepted by the Provincial Government through the process of repayment of debentures and debenture interest which are utilized at the time of construction in financing the projects. Capital costs incurred in construction range from \$11,000 to \$24,000 per bed.

The operational costs involved in providing standard ward care to the residents of the Province of Alberta are closely allied to the unit of services represented by patient days. At the present level of costs the yearly operating costs run in the vicinity of \$10,800 per bed.

These factors serve to indicate the importance in the control of costs of exercising care as to the approval of new beds. At the present time beds previously approved are coming into operation and are creating a built-in increase in operating costs.

The examination of the operational costs has been made as to:

- (1) the share borne by the various partners taking part in the financing of the cost increases,
- (2) the operational areas involved in the increase in costs, and
- (3) the total cost per capita of hospitalization to the residents of the Province of Alberta.

#### B. Total Cost of Hospitalization

Table 3 represents the total cost of hospitalization as shared by the different participants. It represents the combined total of Table 2 and 7. Table 3 differs from 2 in that the owners share includes both municipal and voluntary hospitals. The owner's responsibility represents the costs which are left with the hospitals, made up on costs incurred in the operation of the hospitals in excess of the ceiling amounts established as representing the Provincial Government's financial responsibility, and interest on loans not accepted by the Provincial Government.

Table 5 represents an analysis of how the increase in total cost of hospitalization is shared by the participants.

Table 6 presents an analysis of the operational and construction areas involved in this increase in cost of hospitalization. The largest increase was in cost of salaries for personnel and supplies, an 11.4 per cent increase over 1969. Total costs rose 15.2 per cent in 1970 as against a rise of 13.0 per cent in 1969.

#### C. Hospital Construction

During this year, activity in the processing and approval of new construction and renovation of all health facilities was kept to a minimum, partly by reason of a moratorium on capital projects in this field, and partly because of pending legislation under which the Hospital Services Division, Department of Health was to be replaced by a proposed Hospital Services Commission.

The operations were transferred to an Advisory Committee on Departmental Reorganization in October (Reference Section I Administrative Responsibility) and this Committee kept new approvals to a minimum in the interim period.

In the twelve month period, five new construction projects were authorized, totalling 214 replacement active treatment beds and 20 new active treatment beds throughout the Province.

Construction, previously approved and completed during the year, totalled 234 new and replacement active beds, 200 auxiliary beds, plus 20 nurses' residence beds.

TABLE 4:  
TOTAL ALBERTA HOSPITALIZATION PER CAPITA COSTS  
FOR THE YEARS 1967 - 1970

	1967	1968	1969	1970
Patients' Share	\$ 9.85	\$11.11	\$ 11.83	\$ 9.60*
Owners' Share (including Municipal four mill levy)	9.52	8.38	10.22	3.13
Provincial Government	36.48	39.43	39.04	58.81
Federal Government	34.18	38.97	41.06	49.92
Total Per Capita Cost	\$90.03	\$97.89	\$102.15	\$121.46
Per Capita Costs Shared Under Federal-Provincial Agreement	\$62.98	\$75.82	\$ 79.30	\$ 99.76**
Per Capita Costs Not Under Federal- Provincial Sharing Agreement	\$27.05	\$22.07	\$ 22.85	\$ 21.70*

\* Co-insurance charges discontinued July 1, 1970.

\*\* Increase reflects the deferment of retroactive payments to the hospitals for the year 1969.

(a) Cost decrease related to special research in hospitals	\$ (142,795)	
(b) Decrease in grants towards hospital construction	-	
2. Services Covered Under Federal-Provincial Agreement:		
(a) Cost increase related to hospital in-patient care	8,779,157	
(b) Cost increase related to hospital out-patient care	2,790,633	
TOTAL	<u>\$ 11,426,995</u>	
TOTAL 1970 COST INCREASE BORNE BY ALL PARTICIPANTS	<u>\$ 25,421,853</u>	<u>100.0</u>

The total provincial financial capital contribution to construction during the year was \$4,134,756.88.

Based on statistics showing the Province as having 8.5 active treatment beds per one thousand population as at December 31, 1969, the preliminary investigation of the Advisory Committee to date indicates that there will be little, if any, activity in the provision of any additional active treatment beds in the Province in the foreseeable future. It is more than likely that efforts will be concentrated on redistribution and renovation

where required, and on the provision of more long-term, ambulatory, preventive, and home care facilities.

#### IV. FINANCIAL ANALYSIS

##### SOURCE AND APPLICATION OF FUNDS

##### A.—General

The financial responsibility for hospital operation and construction has been accepted by the Provincial Government within reasonable limits. This leaves the

TABLE 6:

ANALYSIS OF 1970 OPERATIONAL COST INCREASES  
OVER 1969 OPERATIONAL COST INCREASES

Total Cost of Hospitalization - 1970	\$193,133,769		
Total Cost of Hospitalization - 1969	<u>\$167,711,916</u>		
Increase in Costs - 1970	<u>\$ 25,421,853</u>		
1970 Increase Due To:		% of Total Increase	% Increase Over 1969
1. Additional beds brought into service accounted for an additional 256 rated beds during 1970 and gave rise to an estimated cost of	\$ 2,318,246	9.1	1.4
2. Price Level:			
Increasing costs attributable to salaries, wages, supplies, etc., during the year in the active treatment and auxiliary hospitals	18,915,859*	74.4	11.4*
3. Construction costs paid outright covering new construction and renovations decreased during the year	(955,505)	(3.7)	(0.6)
4. Out-patient services volume provided during the year increased	4,934,834	19.4	2.9
5. Contract hospitalization services purchased increased - Within the Province \$ 48,184 Outside the Province <u>\$160,235</u>	<u>208,419</u>	<u>0.8</u>	<u>0.1</u>
TOTAL	<u>\$25,421,853</u>	<u>100.0%</u>	<u>15.2%</u>

\* The increase reflects normal price increase of 1970 plus 1969 adjustments due to deferment of payment of 1969 costs until 1970.

owners with a residual financial responsibility covering the provision of necessary working capital, the provision of the site and the covering of all costs incurred by the hospital in operation and construction which are not considered reasonable.

Hospital operations are carried on under different types of ownership, therefore the analysis is segregated by the following types of ownership: (a) municipal owners, (b) voluntary owners, and (c) provincial government. The financial analysis for 1970 is directed towards a determination of the extent of the owners' responsibility. Tables 10 and 11 provide the analysis.

## B. Total Hospitalization Covered Under The Alberta Hospitalization Benefits Plan

A financial analysis was made of the flow of funds for the calendar year of 1970 from the audited financial statements of all hospitals, other than contract hospitals, situated in Alberta. The information is presented in Table 11 to highlight the owners' responsibility.

The analysis of long term capital expenditures indicated expenditure on capital assets. During the year, the cost of buildings increased by \$2,382,995. The major portion of the expanded facilities was financed by debenture issues of \$1,209,892 and construction grants in the amount of \$449,814.

	<u>\$ 13,916,587.80</u>

## C. Municipal Hospitals

### 1. Approved General Hospital

The analysis of 84 municipally-owned general hospitals indicate the impact of a decrease in the number of construction projects financed in 1970 in this area. The increase in expenditure on buildings exceeded the increase in debentures issued and construction grants by the province.

Municipal requisitions in 1970 were \$5,774,876 as compared with \$1,866,507 in 1969 and \$2,389,932 in 1968 and reflects the basic change in hospital financing which occurred in 1970, whereby retroactive adjusting provincial payments were discontinued leaving hospital excess costs with hospitals in the year 1969 which was subsequently requisitioned in 1970.

### 2. Approved Auxiliary Hospitals

The financial analysis of 23 municipally-owned auxiliary hospitals for 1970 indicates a net decrease in working capital of \$104,617.

Municipal requisitions were \$290,889 in 1970.

## D. Voluntary Hospitals

### 1. Approved General Hospitals Operated by Catholic Orders

A financial analysis of 26 active treatment hospitals owned by Catholic Orders indicated an increase of owners' contributions of \$1,020,571 over 1969.

## 2. Approved General Hospitals Operated by Voluntary Groups Other than Catholic Orders

A financial analysis of 5 active treatment hospitals operated by voluntary groups other than Catholic Orders indicates an owners' contribution in 1970 of \$248,566 compared with a net withdrawal of funds in 1969 of \$1,195,620. Owners' responsibility increased by \$135,186.

## 3. Approved Auxiliary Hospitals

The financial analysis of the 6 auxiliary hospitals in the voluntary groups indicates a net withdrawal of funds by the owners of \$7,374 compared to a contribution of \$9,150 in 1969.

## E. Provincially-Owned General Hospitals

### Approved General Hospitals

Four hospitals are included in this analysis.

Less: Decrease in Working Capital:			
Decrease in Accounts Receivable:			
- Patients and Others	\$ 463,824.21		
Decrease in Prepaid Expenses	8,118.12		
Increase in Accounts Payable	514,352.51	\$ 986,294.84	\$ 4,211,070.06
2. Surpluses:			\$ (1,652,619.72)
3. Unapproved Costs:			\$ 60,976.55
4. Land Improvements:			\$ 35,000.00
Net Expenditure on Capital Assets:			
Buildings	\$ 911,818.08		
Equipment	1,646,542.44		
Repayment of Debentures	672,962.62	\$3,231,323.14	
Less: Contribution to Capital Assets:			
Debenture Grants	\$ 1,648,421.62		
Equipment Grant	559,524.53		
Special Grants	11,374.11	\$2,219,320.26	\$ 1,012,002.88
OWNERS' RESPONSIBILITY UNDER THE PLAN			\$ 3,666,429.77
OWNERS' CONTRIBUTION:			
Funds Contributed by Owners	\$ 3,285,984.25		
Interest and Donations	380,445.52		\$ 3,666,429.77

to \$107,737,000. This is a net increase of \$60,066,000 over the amount outstanding on January 1, 1960, and a net decrease of \$269,000 over 1969.

The financing of construction of new hospitals and of renovations to existing property is facilitated primarily by debenture borrowing. Other sources of funds are grants and outright payments received by hospitals for this purpose. During the preceding eleven years period, debentures in the amount of \$103,317,000 were issued.

The annual repayment of debentures during the calendar year amounted to \$5,087,000 which resulted

in a net decrease in debt applicable to the calendar year 1970 of \$269,000. For 1970 borrowing of \$4,818,000 was financed through the Alberta Municipal Financing Corporation.

## V. INDICES

The indices program which was introduced in 1965, to provide hospital boards and administrators with information on cost and utilization trends within their hospitals as compared to other hospitals of comparable size was continued in 1970. Indices for all hospitals for the calendar year 1969 are shown in Table 20.

## VI. HOSPITALS OPERATING UNDER THE PLAN

Tables 21 and 22 show a summary of the hospitals operating under the Alberta Hospitalization Benefits Plan during 1970.

The diagram following the tables presents in graphic form a breakdown of how the beds are distributed among the four major types of hospitals found in the province. The shaded portions show the average number of beds occupied.

In 1970, there were 9.2 hospital beds per one thousand population available for use in Alberta. The equivalent Canadian average is 7.0.\* There are 5,295 Nursing Home beds in the Province. If these were included, the ratio in Alberta would be 12.5 beds per one thousand population.

The ratio of patient days of hospitalization per one thousand population in 1970 was 2,576.7. There was a net increase of 5.0 percent in patient days of hospitalization over 1969.

The percentage occupancy of Alberta hospitals is calculated as 76.9 percent. The percentage occupancy ranged among hospitals from a low of 39 percent to a high of 100 percent. Data concerning individual hospitals is shown in Appendix Table I.

\* Statistics Canada Hospital Statistics Preliminary Annual Report for 1970.

## VII. PAYMENTS MADE BY HOSPITAL SERVICES SECTION

Table 23 presents details of expenditures made by Hospital Services Section for 1966 through 1970. Payments increased by \$30,084,378.00 over 1969 or an increase of 21.08%. The majority of this increase was in basic payments to general and auxiliary hospitals for in-patient services. This table does not include the non-plan payments made by the province.

## VIII. PAYMENTS OF CO-INSURANCE BY HOSPITAL SERVICES SECTION FOR SPECIAL CLASSES OF PATIENTS

Co-insurance charges were paid for certain types of patients during the year. Table 24 indicates the co-insurance and admission fee number and percentage distribution for each grouping paid during 1970. Table 24 does not include patient days for which hospitals are unable to collect co-insurance charges as for those days paid by the Provincial Government through Bad Debts claims.

During 1970, 18,479 or 57.7 percent of the total number of co-insurance days paid and 2,188 admission fees or 95.3 percent of the total admission fees paid were for special service recipients classed as cancer patients. Multiple handicapped patients had 10,947 co-insurance days paid or 34.2 percent and 85 admission fees paid.

These figures indicate an overall decrease over the previous year's figures. This was primarily due to changes which resulted in the discontinuance of the co-insurance charge on July 1, 1970 and the introduction of an admission fee of \$5.00 charged for the first day of hospitalization.

TABLE 22: DISTRIBUTION OF HOSPITALS IN ALBERTA RECEIVING PAYMENT UNDER THE HOSPITALIZATION BENEFITS PLAN, BY TYPE OF HOSPITAL, THEIR RATED CAPACITY AT 31 DECEMBER 1970 AND VOLUME OF IN-PATIENT CARE DURING 1970

(National Average = 7.0)

## IX. THIRD PARTY LIABILITY

Where as a result of a wrongful act or omission of another, a person suffers personal injury and becomes a beneficiary, the Province is entitled to recover all or part of the cost of hospitalization paid on behalf of an eligible resident.

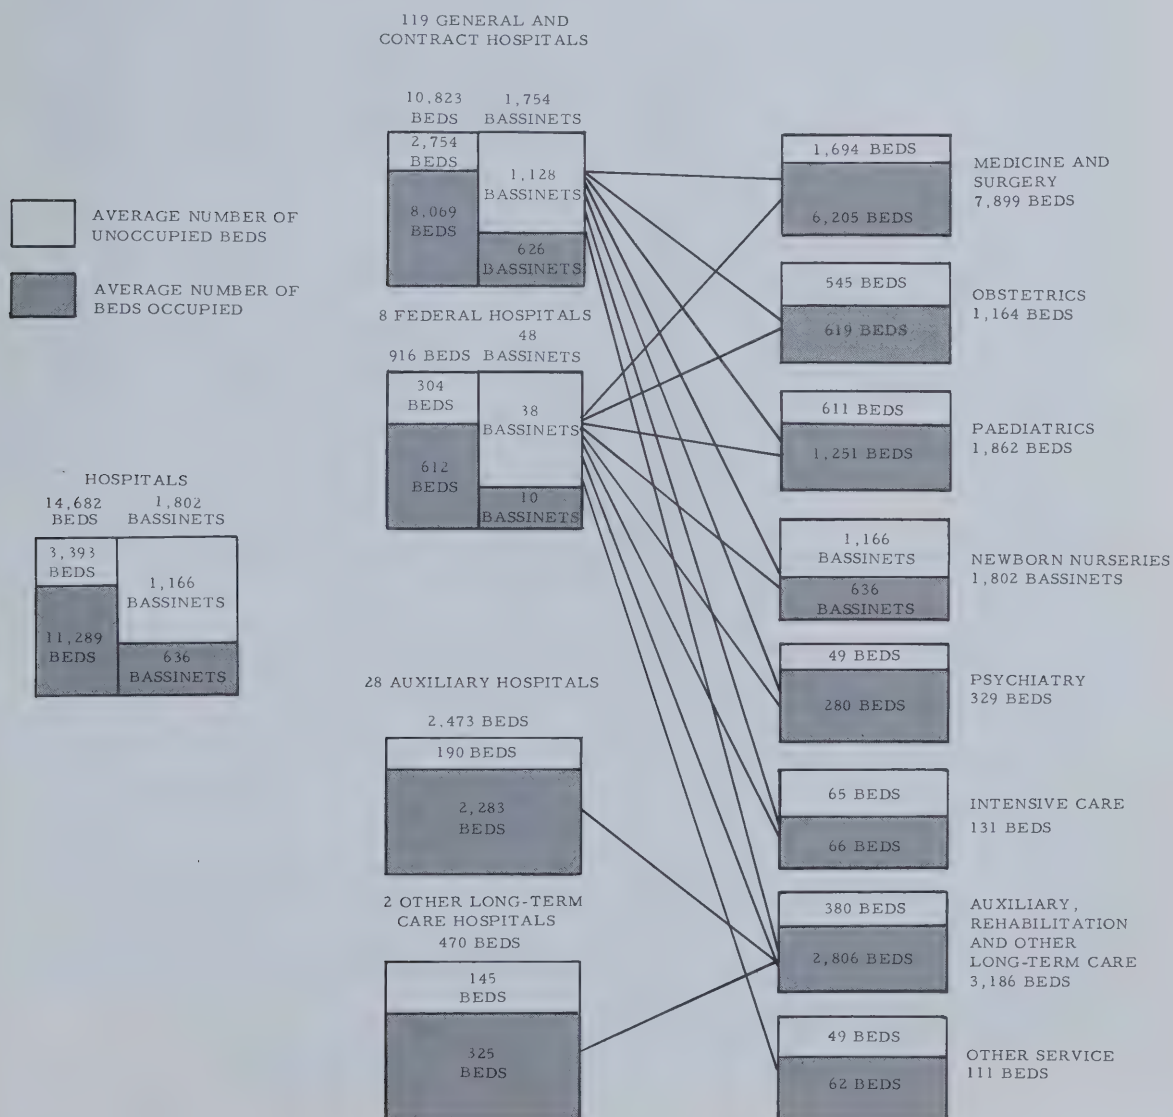

During 1970 approximately 4,350 admissions resulting from accidents were reported to the Hospital Services Section. Steps to recover our costs on some 2,900 of these cases were instigated. Reimbursement was received on 939 cases, giving net recovery of \$409,570. Excluded from the net amount is a disbursement of \$36,546 for collection fees.

## X. OUT-OF-PROVINCE HOSPITALIZATION BENEFITS

Alberta residents are entitled to hospitalization benefits outside Alberta almost without restriction as to circumstance. Until December, 1969, out-patient services outside the province were available only to holders of valid medical cards issued by the Department of Social Development. In 1970, the first complete year in which the hospital out-patient services outside of Alberta were available to all residents, claims in the amount of \$8,782.00 were paid.

Although technically it is an out-of-province hospital, because it is located in Saskatchewan, the Lloyd-

HOSPITALS OPERATING IN ALBERTA AT 31 DECEMBER 1970, THEIR RATED CAPACITY AND AVERAGE OCCUPANCY BY TYPE OF HOSPITAL AND TYPE OF SERVICE

\*\*\* Included with General Hospitals since 1968.

minster hospital is the subject of special arrangements and the data for hospitalization of Alberta residents, therein, are shown separately.

The number of in-patient claims processed in 1970 was only slightly higher than in the preceding year, however, the total number of adults and children days were lower than in the preceding year, and the number of newborn days was higher. The average stay of adults

and children was 7.4 days which is the lowest in the last five years. The average payment per in-patient day, rose from \$33.18 in 1969 to \$38.50 in 1970. Details showing the increase by region are shown in Table 28. Largely because of the increases in rates charged by other provinces, the total cost of out-of-province in-patient hospitalization rose by 10.68 percent over 1969.

Temporary absence not related to seeking health

(1) Does not include Lloydminster.

limited to a rate comparable to that charged by Alberta hospitals for persons not covered by the Plan. The difference between the actual rate charged by the hospital and the amount paid by the Plan usually is the responsibility of the Alberta resident.

Details of in-patient hospitalization benefits to Alberta residents in the Lloydminster hospital are shown in Table 29.

## XI. GROSS EXPENDITURES—OPERATING COSTS

A brief historical summary of the increase in gross expenditures and salaries of approved general hospitals is represented in Table 34. Tables 35, 36 and 37 present a comparative analysis of gross expenditures of approved general and auxiliary hospitals by type of expenditure in total and in patient day ratios.

There has been a general upward trend in recent years of all expenditures. Tables 36 and 37 indicate a per capita increase in total expenditures for approved general hospitals of 8.22 percent. Approved auxiliary hospitals per capita decreased by 2.44 percent.

TABLE 28: OUT-OF-PROVINCE HOSPITALIZATION 1970 FOR ADULTS AND CHILDREN

Place of Hospitalization	Cases	Days	Total Amount Paid All Patients*	Average Stay	Average Payment 1970	Average Payment 1969	Increase Over 1969 Percent
1. British Columbia	1,888	13,875	\$ 527,353.13	7.3	\$37.40	\$32.06	16.66
2. Saskatchewan	667	4,147	148,737.98	6.2	35.46	31.07	14.12

TOTAL	3,921	29,020	\$1,135,967.74	7.4	\$38.50	\$33.18	16.03

\* These total payments do not include adjustments such as refunds, extra payments, etc., but were compiled on the basis of individual vouchers.

services was again the principle circumstance of absence from the province when hospitalization was required. 64.7 percent of the cases in 1970 came within this category as compared to 59.4 percent in 1969. 11.8 percent of the hospitalization outside the province was incurred by people who left the province specifically for the purpose of seeking health care. This compares to 17.3 percent in 1969.

For hospitalization in Canada, the Alberta Hospitalization Benefits Plan pays the rate authorized by the hospitalization authority in the jurisdiction in which the hospital is located, minus the amount of co-insurance which the Alberta resident would have to pay had he received care within the province. For hospitalization in other countries, including the U.S.A., the amount payable by the Alberta Hospitalization Benefits Plan is

<sup>1</sup> Includes data for patients in the Chronic Unit of Colonel Belcher Hospital, Calgary, the Auxiliary Unit of Cardston Municipal Hospital, the Glenrose Provincial General Hospital, Edmonton, and the Auxiliary Unit in the Charles Cammell Hospital, Edmonton.

## GENERAL HOSPITALS

TABLE 34:  
INCREASE IN GROSS EXPENDITURES  
OF GENERAL HOSPITALS, 1960 - 1970

TOTAL GROSS EXPENDITURES			
Year	Amount	Per Cent Yearly Increase	Per Cent Increase From 1960
1960	\$ 45,726,082	9	100.0
1961	48,155,466	5.3	105.3
1962	54,471,471	13.1	119.1
1963	59,969,313	10.1	131.1
1964	65,731,477	9.6	143.7
1965	72,136,626	9.7	157.7
1966	85,011,681	17.8	185.9
1967	102,958,793	21.1	225.1
1968	121,232,805	17.7	265.3
1969	134,459,864	10.9	294.05
1970	152,869,500	13.6	334.3

The largest single cost item is salaries. This item amounts to 68.29 percent of total expenditures for approved general hospitals and 66.52 percent for approved auxiliary hospitals. The cost per patient day for approved general hospitals rose \$3.06, an increase of 9.45 percent from 1969. Approved auxiliary hospitals cost per patient day rose \$0.02 an increase of .13 percent from 1969.

## XII. PERSONNEL

Tables 38 and 39 show the number of selected professional and technical personnel employed by general and auxiliary hospitals as at December 31, 1970, by principal types of positions. Additional information relative to individual hospitals is given in the Appendix, Tables 5, 9, 10, 11, 13, 15, 16 (Parts 1 and 2) and 17.

Table 40 presents a summary of the number of general and auxiliary hospital staff, by department during 1970 in terms of paid hours.

The number of medical interns and residents increased by thirty-four (34) between 1969 and 1970, an increase of 9.6 percent.

Full time graduate nurses on staff in all hospitals increased by eighty-seven (87), a significant drop from the rate of increase for past years. The large rate of decrease in number of student nurses and nursing aids

Food	1,759,786	1,831,600	4.08	1.96	1.96	-
Laundry And Linen	302,263	330,400	9.30	.38	.35	(7.89)
Plant	1,314,719	1,377,863	4.80	1.65	1.47	(10.90)
Interest	560,643	639,830	14.12	.70	.68	(2.85)
Depreciation	820,697	836,295	1.90	1.03	.89	(13.59)
All Other	321,307	351,464	9.38	.40	.37	(7.50)
TOTAL	\$18,002,239	\$20,605,200	\$14.45	\$22.29	\$21.98	\$ (2.44)

which was established in 1969, continued in 1970 with both these categories showing a marked decrease in number of personnel over the previous year.

Table 18 of the Appendix Tables contains data concerning the number of student nurses in training by hospitals. During 1970, the total number of students entering nursing courses was down from the previous year, whereas the total number of students who discontinued or completed training during the year increased. This would effect a net decrease in total students enrolled.

There were also significant increases in the following classes of trained personnel employed on a full time basis on all hospitals: Medical Records Librarians (13), Registered Laboratory Technologists (63), Combined X-Ray and Laboratory Technicians (13), Physiotherapists (32), and Social Workers (20).

### XIII. LABORATORY SERVICES

A new schedule of unit values for laboratory procedures was introduced in 1970. Because of major differences between the new schedule and the schedule used in preceding years, direct volume comparisons between 1970 and preceding years are not possible.

A detailed analysis of laboratory work performed is reported in Tables 7, 8, 9 and 10 of the Appendix Tables.

### XIV. RADIOLOGICAL SERVICES

Table 42 indicates a historical qualitative summary of the diagnostic radiological services in general hospitals. Additional information for individual hospitals is supplied in Tables 5 and 6 of the Appendix Tables.

### XV. OBSTETRICAL SERVICES

A summary of the volume of obstetrical services in general hospitals during each of the past five years is given in Table 43. Based on the Statistics Canada Estimates of Population, the number of obstetrical deliveries in the general hospitals in Alberta was 92.5 per thousand female population, age 15 to 44. The 1969 ratio was 92.4. Additional information concerning the individual hospital's experience for 1970 may be found in Table 11 of the Appendix Tables.

### XVI. OUT-PATIENT SERVICES

Table 44 contains a summary of selected information concerning services provided to out-patients by general hospitals. Gross earnings for all hospitals for out-patient services increased by 23.5 percent during 1970. The greatest increase was in the amount of Physiotherapy services performed for individuals (15.0%), Emergency Unit Visits (17.1%), and X-Ray Examinations (13.4%). Because of the difference in calculating the laboratory units between 1969 and 1970, it is difficult to compare the two years in this area.

TABLE 38: GENERAL HOSPITALS EMPLOYING SELECTED CATEGORIES OF PERSONNEL AS AT 31 DECEMBER 1970 BY SIZE GROUP

\* Federal Hospitals not included as some do not provide hours of work data,  
two contract hospitals are included.

\*\* Percentage less than .05%.

TABLE 41: VOLUME OF LABORATORY WORK IN TERMS OF STANDARD UNITS<sup>1</sup>  
DONE IN GENERAL HOSPITALS<sup>2</sup> AND REFERRED OUT - 1970

	Done In Hospital Laboratory		Referred Out	
	Number of Units	Number of Units	Number of Units	Number of Units
In-Patients	58,066,780		12,027,444	
Out-Patients	8,004,599		2,115,145	
Total Work Done For Hospital Patients		66,071,379		14,142,589
Routine Health Examinations (Staff)	735,248		Breakdown	
Research	507,648			
Quality Control And Standards			Not	
Calibrations	11,526,897			
Environmental Control	727,623		Available	
Total Work Done For Hospital Use		13,497,416		336,359
Units Referred In		2,575,712		
TOTAL NUMBER OF UNITS		82,144,507		14,478,948
Number of Units for Procurement and Handling (Included in Above)				8,367,681
Units Per In-Patient	243.8			
Units Per Patient Day	27.9			

<sup>1</sup> Because of a major revision of unit values, data in this table are not comparable with data in similar tables in previous reports.

<sup>2</sup> Federal Hospitals not included.

TABLE 42: WORKLOAD OF RADIOLOGY IN GENERAL<sup>1</sup> AND CONTRACT HOSPITALS IN VOLUME OF SERVICES PROVIDED

	1965	1966	1967	1968	1969	1970
<u>In-Patient Examinations</u>						
Routine T.B. Chest X-Rays	26,328	20,243	14,300	14,465	16,748	16,616
Other X-Ray Examinations	248,489	270,166	296,228	321,054	331,149	346,723
Per Cent of Patients Having Routine Chest X-Rays	9.6	7.0	4.6	4.3	4.8	4.6
<u>Out-Patient Examinations</u>						
Routine T.B. Chest X-Rays	6,545	6,871	10,720	18,629	13,880	15,653
Other X-Ray Examinations	145,537	167,262	200,302	247,137	272,558	309,089
Per Cent of Patients Having Chest X-Rays	4.3	4.1	5.1	7.0	4.8	4.8
<u>Medical Interpretation of X-Ray Examinations*</u>						
By Radiologists	328,741*	356,248*	363,064*	435,028*	573,998	636,830
By Others	24,227*	25,971*	26,776*	27,720*	42,286	48,891
Per Cent of Interpretations by Radiologists	94.3	94.3	94.2	94.8	93.1	92.9

\* In years prior to 1969, interpretations were reported on the basis of films read. For these years, the number of medical interpretations has been calculated on the basis of the average number of films per examination.

<sup>1</sup> Excludes all Federal Hospitals.

TABLE 43: OBSTETRICAL SERVICES IN GENERAL<sup>1</sup> AND CONTRACT HOSPITALS
